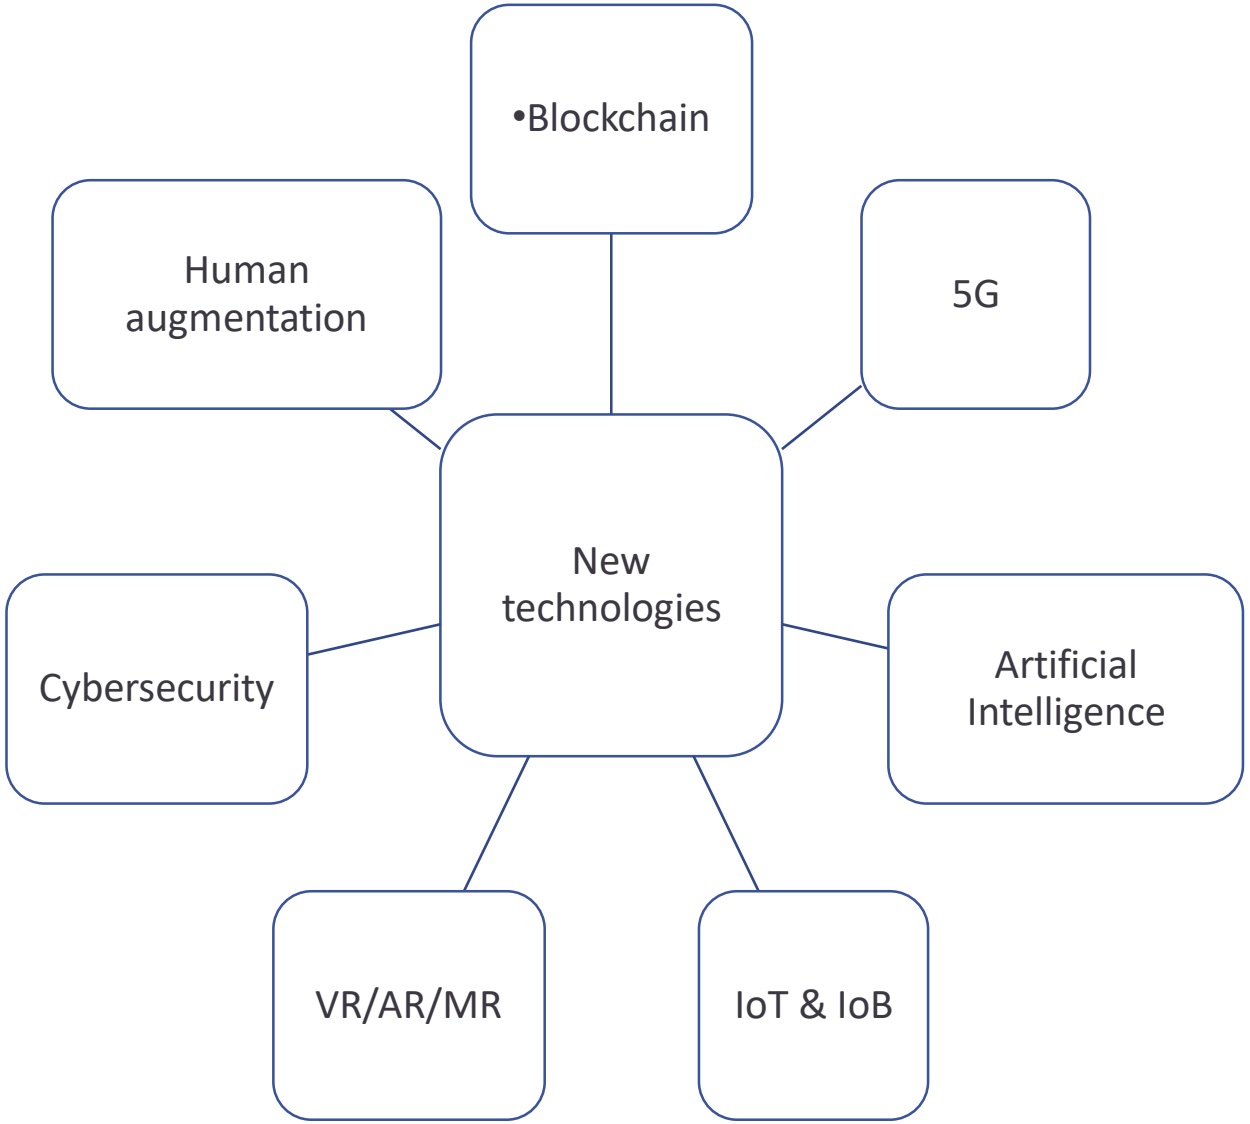
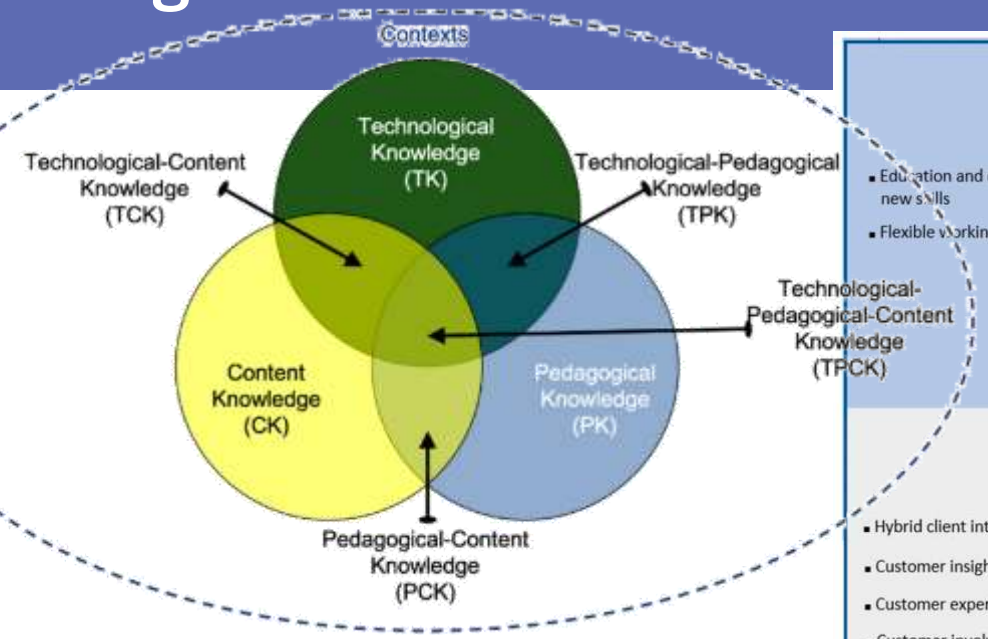
A rapidly changing world…

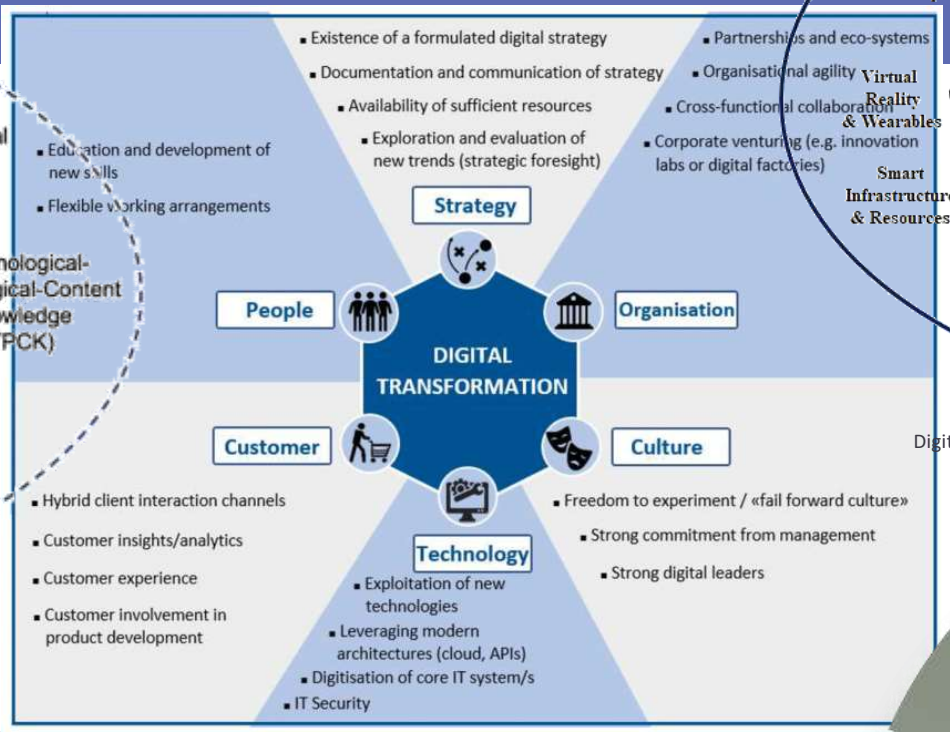


- Government and private services (e.g., banks, healthcare system, markets)
- New forms of education and work (e.g., distance learning, teleworking)
- Global networking and collaboration in the business
- Social media and digital communication
- More…

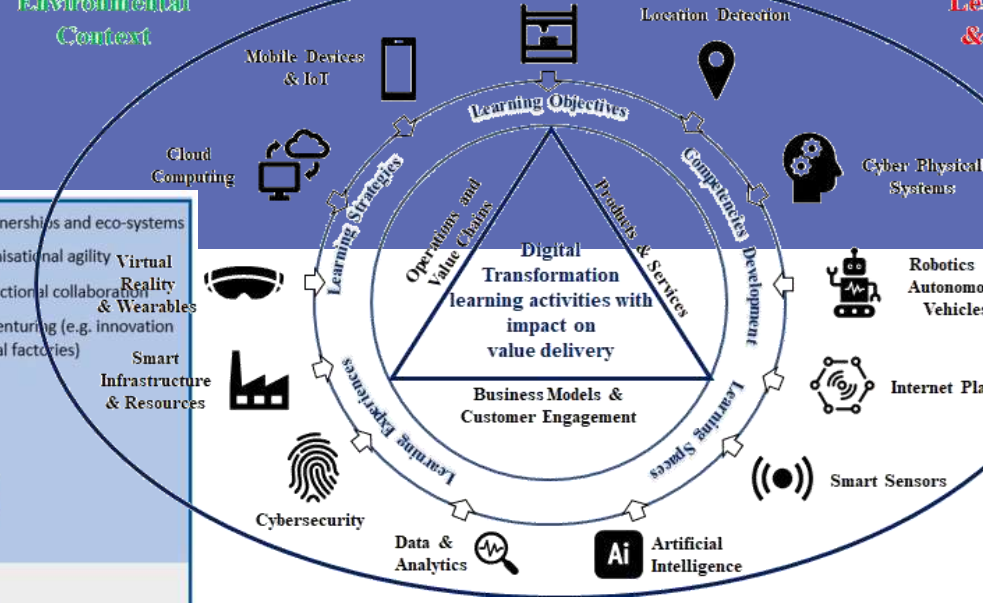
Digital transformation dimensions



Technological Pedagogical Content Knowledge model (Mishra & Koehler, 2006)

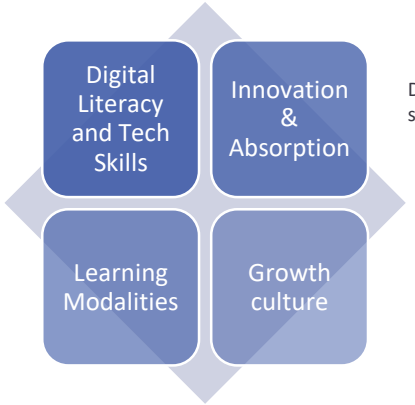


Digital Transformation Framework (Bumann & Peter, 2019)



Digital Transformation Educational Framework (Navarro & Garay-Rondero, 2020)

Digital Transformation in Education (Takyar, 2022)



Digital transformation in the VET sector (Groove project, 2023)

8 dimensions for digital transformation (Buhse, 2021)

GROOVE - Digital Transformation of the Vet Sector

Project aims

- Improve VET providers'/trainers' competences to prepare and implement a digital education action plan.
- Build VET teachers'/trainers' capacity to modernize their teaching practices through pedagogically-driven digital technologies, online education and support remote teaching.
- Build the competencies of VET learners to be digitally competent in the modern era.
- Develop innovative quality resources for VET providers, teachers/trainers and learners.
- Promote awareness on the importance of digital literacy for low-skilled adults in Europe.
